

Physician Referral

powered by Airway.Dental VTP™ · Thomas Bishara, DMD · Morristown & Metuchen, NJ
Breathe Better · Sleep Better

How to send

Fax this form and the sleep study report to (973) 993-1929 (Morristown).

A physician-ordered sleep study is required before referral.

Referral calls & scheduling: 973-993-8303 (Morristown) · Patients seen at 89 Washington St, Morristown or 26 Bridge St, Metuchen

Questions without patient details: hello@airway.dental. Please do not email patient information.

We do not diagnose; you diagnose and prescribe. We fit, titrate and monitor, and report back to you.

Fee-for-service: the patient pays the office directly and receives itemised documentation (incl. E0486) for their own plan.

Patient

Name	Date of birth	Phone
Address	Email	
Medical insurance / member ID	Height / weight / neck	BP (if known)

Diagnosis and study

☐ Obstructive sleep apnea, physician-diagnosed	☐ Snoring / UARS			
☐ PSG	☐ HSAT			
Study date	AHI	Lowest SpO2	T<90%	ODI

What you are asking for

☐ Oral appliance (E0486): CPAP intolerant or declined	☐ Oral appliance with CPAP (combination)
☐ Multi-night monitoring before / during titration	☐ CPAP monitoring (adherence, residual events)
☐ Second opinion on an existing appliance	☐ Pediatric airway evaluation

Other / notes (positional, nasal, TMJ, dental status, medications relevant to sleep)

What you will receive, and when

We aim to see referred patients within 5 business days of patient contact, with same-week confirmation to your office. Then a plain-language, multi-night report (hypoxic burden, SAHI, SpO2, heart rate, sleep quality, jaw tolerance, and morning BP if the patient keeps a cuff) comparing each appliance setting against the patient's own baseline nights, plus a titration summary. Report returned within 5 business days after the titration window closes. Patients stay in your care.
